Journal of the European TRIZ Association - INNOVATOR 02-2017 Volume 4

The collection of selected papers of the TRIZ Future Conference 2017 is included in the Journal of the European TRIZ Association

Special Issue: Selected papers presented at the 17th International TRIZ Future Conference - Bridging C

Editors: Gaetano Cascini, Pavel Livotov. Guest editor: Leonid Chechurin.

ETRIA e.V. - European TRIZ Association. ISSN 1866-4180

Content 02-2017, Volume 04

Advanced Innovation Design Approach:
towards Integration of TRIZ Methodology into Innovation Design Process
Pavel Livotov
(Editorial)

A Comparative Analysis of Praxiological Networks and Selected IDEF Models
Maksymilian Smolnik

A framework of forecasting techniques as a checklist to minimize the likelihood
of product design failures
Yuri Borgianni

A systematic literature review of TRIZ used in Eco-Design
Shqipe Buzuku, Iuliia Shnai

Application of TRIZ Concepts to University Career Development Education:

A practical example of lecture activity with TRIZ
Kiyohisa Nishiyama, Leleito Emanuel, Nobuaki Sakai

Automation of conceptual design stage of framed buildings projects using TRIZ function modelling in BIM environment. A case study
Ivan Renev, Leonid Chechurin, Elena Perlova

Combining discrete event simulation, data analysis, and TRIZ for fleet optimization
Sébastien Bach, Roland de Guio, Nathalie Gartiser

Developing a method to aid engineers in finding solutions for functional problems. Literature research, including biomimetics and TRIZ
Nienke Nijenhuis

Forecasting of product and technology development using heuristic-systematic approach
Sebastian Koziołek, Marek Mysior, Bartosz Pryda, Robert Smirnow, Marek Robak

Generating New Product Ideas with TRIZ-derived ‘Voice of the Product’ and Quantum-Economic Analysis (QEA)
Oleg Abramov

Innovative interaction design approach based on TRIZ separation principles and inventive principles
Xiaoguang Sun, Rémy Houssin, Jean Renaud, Mickael Gardoni, Denis Cavallucci

'Liberty vs. Love': The Principal Contradiction of Human Culture. (2) The 'Liberty vs. Love' Contradiction and 'Ethics' at the Personal Level
Toru Nakagawa

Multiscreen Analysis for Team Strategy Development
Tiziana Bertoncelli, Francesco Papini, Kunal Goray, Oliver Mayer

The 40 Inventive Principles to conduct negotiations - Strategies and tactics to solve conflicts in communication
Claudia Hentschel

The method of the design improving by using the TRIZ function analysis and the trimming
Nikolai Efimov-Soini, Leonid Chechurin

The Study of Effectiveness of TRIZ Tools for Kaizen Activities in Japan and Developing Countries
Manabu Sawaguchi, Heikan Izumi

Trimming in the context of IT-services
Teemu Toivonen

TRIZ popularity, challenges and strategies to make it work in Finland
Behrooz Khademi, Kalle Elfvengren, Leonid Chechurin

TRIZ to resolve socio-technical contradictions within the product usage integration in design
Rémy Houssin, Amadou Coulibaly, Denis Cavallucci, Jean Renaud

A Comparative Analysis of Praxiological Networks and Selected IDEF Models
Maksymilian Smolnik 4

A framework of forecasting techniques as a checklist to minimize the likelihood of product design failures
Yuri Borgianni 12

A systematic literature review of TRIZ used in Eco-Design
Shqipe Buzuku, Iuliia Shnai 20

Application of TRIZ Concepts to University Career Development Education: A practical example of lecture activity with TRIZ
Kiyohisa Nishiyama, Leleito Emanuel, Nobuaki Sakai 32

Automation of conceptual design stage of framed buildings projects using TRIZ function modelling in BIM environment. A case study
Ivan Renev, Leonid Chechurin, Elena Perlova 39

Combining discrete event simulation, data analysis, and TRIZ for fleet optimization
Sébastien Bach, Roland de Guio, Nathalie Gartiser 47

Developing a method to aid engineers in finding solutions for functional problems. Literature research, including biomimetics and TRIZ
Nienke Nijenhuis 62

Forecasting of product and technology development using heuristic-systematic approach
Sebastian Koziołek, Marek Mysior, Bartosz Pryda, Robert Smirnow, Marek Robak
